### Discipline at OED

## OED Discipline: Warnings vs. Formal Discipline

- Generally speaking, "formal discipline" at OED is public discipline.
- Formal disciplinary sanctions include:
  - Exclusion from practice before the Office;
  - Suspension from practice before the Office; or
  - Public reprimand.  
37 C.F.R. § 11.20(a).

  - A warning is neither public nor a disciplinary sanction.

## OED Discipline: Warnings vs. Formal Discipline

uspto

## OED Discipline: Grievances and Complaints

- An investigation of possible grounds for discipline may be initiated by the receipt of a grievance. See 37 C.F.R. § 11.22(a).
- Grievance: "a written submission from any source received by the OED Director that presents possible grounds for discipline of a specified practitioner." 37 C.F.R. § 11.1.

## OED Discipline: Grievances and Complaints

- If investigation reveals that grounds for discipline exist, the matter may be referred to the Committee on Discipline to make a probable cause determination. *See* 37 C.F.R. § 11.32.
- If probable cause is found, OED Director may file a complaint under 37 C.F.R. § 11.34. *See* 37 C.F.R. § 11.32.
- 37 C.F.R. § 11.34(d) specifies that the timing for filing a complaint shall be within one year after the date on which the OED Director receives a grievance.

### Proposed Revision of 37 C.F.R. § 1.56

### Current 37 C.F.R. § 1.56

- (a) . . . Each individual associated with the filing and prosecution of a patent application has a duty of candor and good faith in dealing with the Office, which includes a duty to disclose to the Office all information known to that individual to be material to patentability as defined in this section."
- (b) . . . information is material to patentability when it is not cumulative to information already of record or being made of record in the application, and (1) It establishes, by itself or in combination with other information, a prima facie case of unpatentability of a claim; or (2) It refutes, or is inconsistent with, a position the applicant takes in: (i) Opposing an argument of unpatentability relied on by the Office, or (ii) Asserting an argument of patentability.
- (b) . . . A prima facie case of unpatentability is established when the information compels a conclusion that a claim is unpatentable under the preponderance of evidence, burden-of-proof standard, giving each term in the claim its broadest reasonable construction consistent with the specification, and before any consideration is given to evidence which may be submitted in an attempt to establish a contrary conclusion of patentability.  
(emphasis added)

## ***Therasense, Inc. v. Becton, Dickenson & Co.,*** **649 F.3d 1276 (Fed. Cir. 2011)**

- Materiality standard is “but-for” materiality.
  - Prior art is but-for material if the PTO would not have allowed a claim had it been aware of the undisclosed prior art.
- Materiality prong may also be satisfied in cases of affirmative egregious misconduct
- Intent to deceive USPTO must be weighed independent of materiality.
  - Courts previously used sliding scale when weighing intent and materiality.
- Intent to deceive must be single most reasonable inference to be drawn from evidence.

## **2011 Proposed Changes to 37 C.F.R. § 1.56**

- Initial NPRM issued on July 21, 2011 (76 FR 43631)
- 2011 Proposed Amendment to 37 C.F.R. § 1.56(b)
  - Information is material to patentability if it is material under the standard set forth in [*Therasense*]. Information is material to patentability under *Therasense* if: (1) The Office would not allow a claim if it were aware of the information, applying the preponderance of the evidence standard and giving the claim its broadest reasonable construction; or (2) The applicant engages in affirmative egregious misconduct before the Office as to the information.
- Similar proposed amendment to 37 C.F.R. § 1.555.
- USPTO received feedback from 24 commenters.

## 2016 Notice of Proposed Rulemaking

- NPRM issued October 28, 2016; <https://www.federalregister.gov>.
- 60 day comment period.
- 2016 NPRM addresses comments received to 2011 proposed rules.
- Proposed amendment to 37 C.F.R. § 1.56 (emphasis added):
  - (a) . . . Each individual associated with the filing and prosecution of a patent application has a duty of candor and good faith in dealing with the Office, which includes a duty to disclose to the Office **all information known to that individual** to be material to patentability under the **but-for materiality standard** as defined in paragraph (b) of this section. . . . Information material to the patentability of a claim that is cancelled or withdrawn from consideration need not be submitted if the information is not material to the patentability of any claim remaining under consideration in the application. . . . However, no patent will be granted on an application in connection with which **affirmative egregious misconduct** was engaged in, fraud on the Office was practiced or attempted, or the duty of disclosure was violated through bad faith or intentional misconduct. The Office encourages applicants to carefully examine: (1) Prior art cited in search reports of a foreign patent office in a counterpart application, and (2) The closest information over which individuals associated with the filing or prosecution of a patent application believe any pending claim patentably defines, to make sure that any material information contained therein is disclosed to the Office.
  - (b) Information is but-for material to patentability if the Office would not allow a claim if the Office were aware of the information, applying the preponderance of the evidence standard and giving the claim its broadest reasonable construction consistent with the specification.
