

Dr Michael A. Roberts is a partner at Reddie & Grose, a European boutique IP firm with offices in London, Cambridge, Munich and The Hague. Michael is a European and Chartered (UK) Patent Attorney, with an IP practice focused in the life sciences fields including biotechnology, microbiology, molecular biology, genetic engineering, immunology, enzymology, pharmaceuticals, medical instruments and plant protection (including plant variety rights). Before joining the patent profession in 1999, he obtained a PhD in molecular genetics from the University of St Andrews and postdoctoral research experience at the John Innes Centre, Norwich. In addition to patent drafting, prosecution and EPO oppositions/appeals, he assists clients with due diligence and patent reports, notably for private or public fund raising, patent portfolio advice, and issues such as freedom to operate and patent validity. Michael is listed in the 2019, 2020 and 2021 IAM Patent 1000 directory of the world's leading patent professionals, and is in Who's Who Legal's list of Global Leaders in the field of patents for 2021.

Stephen Yang is a Chinese patent attorney and managing partner of IP March. His practice covers patent drafting, prosecution, invalidation, opinion and litigation in mechanics, electronics, energy and high-tech areas. His IP career began in 1997. In addition to practicing in IP firms in China, he once worked in-house in Canada. Stephen's technical background is mechanical and industrial engineering. He received double Bachelor's degrees from Tsinghua University in China and a Master's degree from University of Toronto in Canada. Stephen is a frequent speaker at international conferences, webinars and courses and a prolific author of many articles and books. In particular, he is the lead author of the book "IP Protection in China", published by ABA Publishing. Stephen has been consistently recognized by various sources as a leading IP practitioner in China.

Ksenia Takhistova, M.S., J.D.

Ms. Ksenia Takhistova is a Co-Chair, Director and Legal Counsel at CME, Inc., a non-profit organization dedicated to accelerating diverse STEM talent and leadership for sustainable innovation since 1954. Before she joined the company, Ksenia spent over ten years as an attorney in private practice, at an IP boutique Kenyon & Kenyon and an AmLaw100 Firm Hunton Andrews Kurth. She is an experienced IP litigator and technology attorney who counsels clients on US intellectual property law issues across a wide variety of modern and emerging technologies. Ksenia has substantial experience in all aspects of litigation, representing both plaintiffs and defendants in patent cases before the Federal District Courts, at the International Trade Commission, in post-grant proceedings at the US Patent and Trademark Office, and before the Federal Circuit. She also handles other IP-related disputes, including trade secret, false advertising, and antitrust issues, in both Federal and State Courts, and has been named by Super Lawyers as a New York Rising Star in IP litigation in 2017, 2018 and 2019.

Ksenia also represents clients in tech transactions, including IP portfolio licensing, technology-focused joint ventures and spinoffs, negotiates various technology-related agreements, and performs M&A due diligence and opinion work, including freedom-to-operate, patentability, infringement and validity analyses. Drawing on her extensive educational and research background in the mechanical and chemical engineering arts, she is able to effectively advise clients and handle disputes in a broad array of technical fields, such as mechanical and medical devices, electrical and computer technology, life sciences, chemical, materials, and consumer products. Ksenia frequently speaks at domestic and international IP law conferences and serves as a mediation coach for VLA. She is an elected Board member of Leading Women in Technology, a non-profit dedicated to empowering women to grow their knowledge, leadership skills and network in order to map their own paths to career success and achieve greater personal and professional impact. Ksenia is a long-time member and supporter of NYIPLA, and frequently co-authors amicus briefs on substantive legal issues of importance to the IP profession,

She holds an M.S. in Chemical Engineering from University of Notre Dame, an M.S. in Mechanical Engineering from Moscow State University, and a J.D. from Rutgers Law School. She interned at the technology transfer office of the NJ Institute of Technology and clerked at the NJ Law Revision Commission.
